Week Five STEM

Pizza Box S'mores Oven

SUPPLIES:

- ◆ Pizza box
- ◆ Page protectors
- ◆ Black paper
- ◆ Duct tape
- ◆ Packing tape
- ◆ Bamboo skewer
- ◆ Foil
- ◆ Ruler
- ◆ glue

INSTRUCTIONS:

- ◆ On the outside of the pizza box lid, measure and draw a square that is about 2in from the edges of the box.
- ◆ Cut along the front and two sides of the square using a box cutter or scissors. DO NOT CUT ALONG THE HINGED SIDE.
- ◆ Measure and cut a piece of foil large enough to line the bottom and two sides of the pizza box.
- ◆ Glue the foil—shiny side up!—to the bottom of the pizza box
- ◆ Measure and cut a piece of foil large enough to cover the inside surface of your flap in the lid. Glue the foil—shiny side out—to the lid so it is facing the inside of the box.
- ◆ Measure and cut a piece of construction paper that is 1-2in smaller along each edge than the bottom of the box.
- ◆ Center the black paper on the foil bottom of the box. Using clear tape, tape the black paper to the foil.
- ◆ Take the page protectors, and carefully pull the thin sheets apart along the short edge. Lay out both rectangles, and tape the two long edges together to make one large sheet.
- ◆ Tape the plastic to the inside of the box lid. DO NOT tape it to the flap you cut out. The flap should still move freely, and the plastic covers the flaps opening from under the lid.
- ◆ Use the sharp end of the skewer to poke two small dents about 2inches apart into one side of the lid. Tape the skewer to use as a kickstand prop to keep the box lid open.
- ◆ You are ready to cook!
